

Neurosciences Physician Update

September 2023

Diagnosis and treatment of adult scoliosis

Patient Care

High-tech approach aids clinical decision-making for adults with hydrocephalus

Sophisticated gait assessments and artificial intelligence are spurring Mayo Clinic's innovations in the diagnosis and treatment of idiopathic normal-pressure hydrocephalus.

Research

Stem cell studies focus on neuronal recovery after ICH

Mayo Clinic researchers are studying how mesenchymal stem cells might treat the effects of intracerebral hemorrhage. Preclinical work demonstrated the cells' capacity to rescue injured neurons.
